

M Blue - I Wish You Realise

tom: G

C

Did someone steal all your memories
Em
Can you at least remember something
F
About how we cared for eachother
G
Oh wait that was an another

C

Why do you barely look at me
Em
Is for the blame of ignoring me
F
I hate seeing your face on my phone
G
Will this shit last for any long

C

I wish you realise
Em
That you were part of my life
F G
And that you can't leave from day to night
C
I wish you realise
Em
That I miss you really bad
F G
And admit that what we had was very nice

C

I don't wanna think about us
Em
As if we never been that close
F
I never had a friend like you
G
And now you have more than two
C

I swear I don't know why you did
Em
That thing of stopping talking to me
F
I know that it's not my fault
G
You are the only one to blame for

C

I wish you realise
Em
You made the mistake of your life
F G
And that is hard not gossiping at night
C
I wish you realise
Em
That this is becoming really bad
F G
And that losing eachother is not really nice

C Am
Oh-oh
F G Em
Oh-oh
Am F
Oh-oh
G Em Am
Oh-oh
G
Oh

C

I wish you realise
Em
That I liked you in my life
F G
And that sometimes I think about you in the night
C
I wish you realise
Em
You wanna talk to me when you're bad
F G
And that this distance is everything but nice
