

Machine Gun Kelly - Lonely

tom:
Capostrate na 6ª casa

I got in trouble
The first time my dad saw me
Dance with the devil
How are we so opposite?

I lived with your sister

My first home since Mom had left
And I wrote my first song

With him in the basement

And then he said goodbye way too soon
And this don't feel right without you

Lonely, lonely, even when the room is full
I'd trade it, trade it
I would trade it all for you
Lonely, lonely, even when the room is full
I'm lonely, lonely, lonely without you

I got in trouble

The first time the cops saw me
Dance with the devil

I ended up in handcuffs and then

You called your sister

She cried when she picked me up
Goddamn, how I miss her

'Cause she didn't give a fuck

And then she said goodbye way too soon
And this don't feel right without you

Lonely, lonely, even when the room is full
I'd trade it, trade it
I would trade it all for you
Lonely, lonely, even when the room is full
I'm lonely, lonely, lonely without you

The last time I saw you (fuck)
I cried, I wish you had more time left
The last time I heard you
They held the phone, you took your last breath

The last time I saw you (saw you)
I cried, I wish you had more time left
The last time I heard you (heard you)
They held the phone, you took your last breath

Lonely, lonely, even when the room is full
I'd trade it, trade it
I would trade it all for you
Lonely, lonely, even when the room is full
I'd trade it, trade it, I'd trade it all for you
Lonely, lonely, even when the room is full
I'd trade it, trade it, I'd trade it all for you
Lonely, lonely, even when the room is full
I hate this, I'm jaded
And I'd trade it all for you
