

Madonna - Devil Pray

Tom: C Am C G Am Take my sins and wash them away Am C E Teach me how to pray Am C G Am I've been stranded here in the dark Am G Am Take these walls away I've been swimming in the ocean Till I'm almost drowned Give me something I can believe in Teach me how to pray Am C And we can do drugs And we can smoke weed And we can drink whiskey Yeah we can get high And we can get stoned And we can sniff glue

And we can drop acid
Am C E
Forever been lost with no way home

Yeah we can run
And we can hide
But we won't find the answers
If you'll go down and you'll get help along the way
But if you wanna save your soul
Then we could travel all together

Acordes

And we can do E

And make the devil pray

Ooh, save my soul, save my soul, save my Devil's here to fool ya

Mother Mary, can't you help me? Cuz I'm gone astray All the angels that were around me Have all flown away

The ground beneath my feet's getting warmer Lucifer is near Holding on, but I'm getting weaker Watch me disappear

And we can do drugs And we can smoke weed And we can drink whiskey Yeah we can get high And we can get stoned

And we can sniff glue And we can do E And we can drop acid Forever been lost with no way home

Yeah we can run
And we can hide
But we won't find the answers
If you'll go down and you'll get help along the way
But if you wanna save your soul
Then we could travel all together
And make the devil pray

Ooh ooh ooh sing hallelujah
Ooh ooh ooh save my soul
Ooh ooh ooh the devil was here to fool ya
Until my story's told
I said oooh sing hallelujah
Oooh, save my soul
Oooh, the devil's here to fool ya
Until my story's told
