

Madonna - Miles Away

Tom: C

(intro) Am Em G Dm

Am G
I just woke up from a fuzzy dream
Em Dm
You never would believe those things that I had seen
Am G
I looked in the mirror and I saw your face
Em Dm
You looked right through me, you were miles away

Am G
All my dreams, they fade away
Em Dm
I'll never be the same
Am G
If you could see me the way you see yourself
Em F
I can't pretend to be someone else

Am
You always love me more
G
Miles away
Em
I hear it in your voice
Dm
We are miles away
Am
You're not afraid to tell me

Miles away

You always have the biggest heart
Em Dm
When we're six thousand miles apart

Am G
Too much of no sound
Em Dm
Uncomfortable silence can be so loud

Those three words are never enough

But it's now distance love
