

Maggie Rogers - Back in My Body

```
tom:
Intro: A E B Dbm B
[Primeira Parte]
I was stopped in London when I felt it coming down
Crashing all around me with a great triumphant sound
                                В
Like the dam was breaking and my mind came rushing in
                               В
I was stopped in London, oh, I was awakening
( E B Dbm B A )
( E B )
[Primeira Partel
I was o'er in Paris when I almost ran away
Dbm A
Two times round the block before I decided to stay

                                В
Puffed along a cigarette that went and made me sick
                           B E B
Spent another day pretending I was over it
[Refrão]
This time, I know I'm fighting
             Dbm
                      В
This time, I know I'm (Back in my body)

This time, I know I'm back in my body, oh
I'm back in my body, oh
(Dbm A B E B)
[Segunda Parte]
And all along the highway, there's a tiny whispering sound
Saying I could find you in the dark of any town
But all that I am hearing in the poem of my mind
Are silent twisted words finding their way in every line
Oh, this time
Oh, this time
