

Maggie Rogers - Retrograde

```
tom:
                Ab (forma dos acordes no tom de G )
Capostraste na 1º casa
Intro: G C
[Primeira Parte]
You said, "I can't take no more"
Lying by the sycamore
And I know we've both been here before
You said, "Fuck, let's leave the blame"
Heartache always feels the same
And I know we've both been here before
[Refrão]
Oh, here I am, settled in at your house
Broken blinds keep the light coming out
And I am just the shape I'm in
Ooh, here I am, settled in, crying out
Finding all the things that I can't do without
        am giving in
Oh, I'm in retrograde
Oh, I'm in retrograde
    C
Retrograde
[Segunda Parte]
Standing staring straight ahead
Listening when Stevie says, mmm
"Come out of the darkness"
```

```
Feeling all I've ever known
Fall away and letting go
Oh, come out of the darkness
Ooh, here I am, settled in on your floor
Quieting all the world outside your door
   Em D
And I am reckoning
Oh, here I am, settled in, freaking out
You bring me in to help me, let me get me out
Oh I, I, I, I'm in retrograde
I'm in retrograde
Oh, if only I could give in
If I could get out
If only I could break in
If you could let me out
If only I could let go
If I could sit out
If only I could get back
If I could let me out
Oh, I'm in retrograde
Yeah, mmm
I'm in retrograde
G C
Ooh, ooh, ooh
```
