

The Magnetic Fields - I Think I Need a New Heart

Tom: **G**

Verso:

Em **C** **G**
Time stands still

All I can feel is the time standing still

As you put down the keys

And say don't call me please

D **C**
As the radio plays

Refrão:

Em **C** **G**
You've lied too

G
but it's a sin that I

Em **C** **G**
can't tell the truth

G **D**
cause it all comes out wrong

C **G** **D**
unless I put it in a song

D **C**
so the radio plays

C **G**
Cause I always say I love you

D **G**
When I mean turn out the light

C **G**
And I say let's run away

D **G**
When I just mean stay tonight

C **G**
But the words you want to hear

D **G** **C**
You will never hear from me, I'll never say

G **D**
Happy anniversary

C **G** **D**
Never stay to say, Happy anniversary
