

Maisie Peters - You To You

tom:
Intro: A Abm G D

[Parte 1]
Two months ago today
You had my heart on a plate
We ate takeout on your floor
I gave the world to you and more
But it took you a minute
To rip us up in a minute
To say you're done with committing

[Pré-Refrão]
And I lost my friends
Took your side
Had your back ?cause I thought you had mine

That was then
I was wrong

[Refrão]
So I hope that you find someone that you trust
And you give all your darkest secrets up
And then I hope she breaks your heart in two
Hope she does a you to you, to you
To you, to you, to you

[Parte 2]
I shouldn't be surprised
You're not the ?meet the parents' type
You said you needed me
You wanted to be with me
Just don't want your friends to see
You said I was different
But I wasn't different
And now I wish that I'd listened

[Pré-Refrão]
And I lost my friends
Took your side
Had your back ?cause I thought you had mine

That was then
I was wrong

[Refrão]
So I hope that you find someone that you trust
And you give all your darkest secrets up
And then I hope she breaks your heart in two
Hope she does a you to you, to you
To you, to you, to you
I hope you give her everything you've got
And she tells you you're special when you're not
And then I hope she breaks your heart in two
Hope she does a you to you, to you
To you, to you, to you

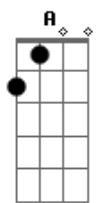

[Ponte]
I know this song is bitter
But my calls didn't get through to you
Blocked on both your phones
Oh, look at that, I guess it's two for two
Calling me a psycho to our friends
And that's not news to me
Wish it was but honestly
It's just so you

So I hope you think you've finally found the one
And then she fucks you over just for fun
'Cause then maybe you'll realize what you do
Hope she does a you to you

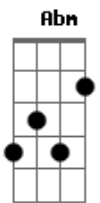

[Refrão]
So I hope that you find someone that you trust
And you give all your darkest secrets up
And then I hope she breaks your heart in two
Hope she does a you to you, to you
To you, to you, to you

[Final]
Oh, I hope she, yeah, I hope
I hope she breaks your heart
Baby, oh you know I hope she does
And I hope she does, I hope she does
