

# Mando Diao - Crystal

Tom: G

Fade away  
All that we have dreamed of  
Bergman said it all  
The magic is in the fall, so true  
When you see him tell him all that you  
Don't know  
All how much we've grown  
So I cry but like always, I don't feel  
That much in here  
So I sit by your side just to be near you  
Oh lord please don't take him yet  
Now you're gone, you're with angels  
I will soon come visit you  
And talk about, the time we had together  
And our town is filled with tears  
Don't feel bad while you're there

Life was only sad sad while you were here  
Filled with rage and fear  
And now I sit by your side  
But you can't hear me  
You can always count on me  
Don't feel sad, you're with angels  
I will soon come visit you  
And talk about, the time we had together  
Now our town is filled with tears  
So I sit by your side  
Although you're not with me  
When I comfort you, when I come to you  
And like always, right here by your side  
Don't feel sad, you're with angels  
I will soon come visit you  
And talk about, the time we had together  
And our town is filled with tears  
( G D Am C )
