

Marcos Ferrari - Let's Go & Find (feat. Mely Walide)

tom:
Nananana

Mhh

A million different nations
A million destinations
I always seem to come back to you
Everything's an adventure
When you are the picture
My worries fade away when I'm with you

Let's go and find
Let's go find a place that's made for us
Let's go find a place they can't find us
Nothing is too far away as long as we got us
Cross all of the oceans and the seas
Hike up all the mountains and valleys
You and me against the world is all I really need

Woah, woah
Let's go and find
Woah, woah
Yeah

The sunset sets the mood and
The lighting hits you perfect

And in that moment baby I'm sure
The bond we got is quite rare
I feel at ease when you're there
And I know for sure you feel the same

Yeah

Let's go and find
Let's go find a place that's made for us
Let's go find a place they can't find us
Nothing is too far away as long as we got us
Cross all of the oceans and the seas
Hike up all the mountains and valleys
You and me against the world is all I really need

Woah, woah
Let's go and find
Woah, woah
Yeah

The sunset sets the mood and
The lighting hits you perfect
And in that moment baby I'm sure
The bond we got is quite rare
I feel at ease when you're there
And I know for sure you feel the same

Let's go and find
