

Marie Digby - Say It Agin

tom:
Capostrate na 5ª casa
Intro: G D Am C

The thing about love
Is i never saw it coming
It kind of crept up
And took me by surprise
And now there's a voice inside my heart
Its got me wondering
Is it true..? I wanna hear it one more time

Move in a little closer
Take it to a whisper
Just a little louder

Say it Again for me
Cause i love the way it feels
When you are telling me that i'm
The only one who blows your mind
Say it again for me
It's like the whole world
Stops to listen
When you tell me you're in love
Say it again

(G D Am C)
(G D Am C)

The thing about you
Is you know just how to get me
You talk about us
Like there's no end in sight
The thing about me
Is that i really wanna let you

Open that door
And walk into my life
Move in a little closer
Take it to a whisper
Just a little louder
Say it Again for me
Cause i love the way it feels
When you are telling me that i'm
The only one who blows your mind
Say it again for me
It's like the whole world
Stops to listen
When you tell me you're in love
Say it again
And it feels like, it's the first time
That anybody's ever brought the sun without the rain
And never, in my whole life
Have i heard words as beautiful as when you say my name
Say it Again for me
Cause i love the way it feels
When you are telling me that i'm
The only one who blows your mind
Say it again for me
It's like the whole world
Stops to listen
When you tell me you're in love
Say it again
G D Am Am C
Say it again
