Verse 1 (wig. 1)

=====

The cars leave their trails of hot and cold light inside my
head
Like burned-in long exposure pictures
The wheels spin slowly backwards
Strobing in the amber light
And the rain comes down and washes my brain
But it don't get clean

Chorus

=====

Chord Progression:

| **E** | **A** | **G** | **D** |

This town has turned me into what I have become
This town dresses me up like a stranger

This town performs in the window like the ultimate gift
This town takes us down
I feel like I'm losing you to this town

Verse 2 (wig. 1)

=====

We were saving our money for half of our lives
We were saving our dreams
And we came to this place to make the chances real
In the big city
But I've been counting the days
I've been watching you change
And I can feel it dying
The noise outside takes you in its arms
Like a lamb to a lion

Bridge (Play **B** 4 times)

=====

And down there somewhere among the noise
The magazine dolls and the big money boys
Move silently on their easy heels
They move silently on their greasy wheels

Chorus (there is a guitar part but I can't make it out)

=====

This town has turned me into what I have become
This town dresses you up like a stranger
This town hangs around in the doorway and tells me I'm late
This town takes us down, takes us down
I feel like I'm losing you to this town

The morning breaks and I watch you awake
This town takes you down away from me again
