

Marilyn Manson - Little Horn

Tom: Gb	Riff 2 again
<p>This is the awesome 5th song on the Antichrist Superstar album. This song sounds great and is easy as hell to play. You'll have to tune your guitar to Dropped D so the order of the strings are like this: Low to High- D, A, D, G, B, e</p> <p>Intro: and Main Riff</p>	Chorus again
Riff 2(This part is being played when he is singing, Little Horn Is Born)	Riff 3 (It goes into that really fast-sounding part after the 2nd run through the Chorus)
	Main Riff again
Chorus (This is when he sings, World Spreads It's Legs For Another Staretc)	Chorus one last time
Main Riff Again	That's it for that song, it's pretty simple to play. I hope you enjoy it. If you have any questions, comments, corrections, or whatever e-mail me at
