

Marilyn Manson - No Reflection

Tom: **D**

Tuning: Drop **D** -> DADGBE

pick on E, **B** and **G** strings to make that sound on the beginning, then:

Keep repeating this /\ or the first one (this one sounds more heavy, but the first one with only one note seems to be the right one, or the guitar is too low on the

mix. So just play whatever sounds good to you, it's the same note).

"This will hurt you worse than me [...]"

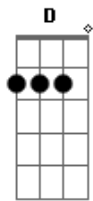

Chorus (I don't know which me that I love [...])

pm There's this part where Manson says ''you, you don't, even, want to know what I'm gonna do to you'' and there's a guitar playing high notes, here they are:

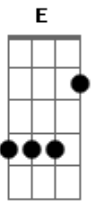

Sorry, I can't figure it out the synth at the end, too distorted, probably it's a single note being whammed over, my guitar doesn't have a whammy bar. Sorry again. :(

The song is basically the same notes repeated over and over untill its end. :)
