Marina And The Diamonds - Lies

Tom: G
Intro: Am G Em D

```
  Am                        G
   You're never gonna love me
  Em            D
   So what's the use?
  Am                        G
   What's the point in playing
  Em            D
A game you're gonna lose?
  Am                G
   What's the point of saying
  Em                    D
   You love me like a friend?
  Am                    G
   What's the point of saying
  Em                D
   It's never gonna end?
```

Pré-refrão:

```
                Am                        G
   You're too proud to say that you've made a mistake
                Em            D
   You're a coward to the end
             Am                   G
   I don't wanna admit, but we're not gonna fit
              Em
   No, I'm not the type that you like
   D
   Why don't we just pretend?
```

  Am                        G
  You only ever touch me
Em           D
  In the dark
  Am                      G
  Only if we're drinking
Em            D
  Can you see my spark
  Am                    G
  And only in the evening
Em            D
```
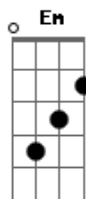

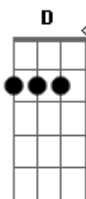

Could you give yourself to me
```
  Am                            G
Cause the night is your woman
Em         D
And she'll set you free
```
