

# Marina And The Diamonds - Starlight (Demo)

tom:  
 Stars and love burn bright  
 Till they're ready to die  
 The broken spend their nights  
 Staring at the sky  
 You, oh you had a sad urge  
 To be wanted by fools  
 Welcoming girls that would be  
 Slippin', trippin', enveloping your family jewels  
 You chose to grow your nose  
 But deep down you knew, I knew, you knew, I knew  
 That I'd up and run quicker than good boys come  
 They said I was too good for you  
 Wake up little Suzie  
 It's bad news when you hear a guy cry  
 You spilled the beans in January  
 Timed it perfectly after your granny died (Tsk-tsk-tsk)  
 You knew I wouldn't shoot a man when he was down  
 Well done, Pinocchio, you made a lie  
 Why would you take advantage of a cut-up heart  
 At such a vulnerable time?  
 You said  
 "I'm so lonely, won't you hold me?  
 I'm so lonely, come close, baby, hold me"  
 Love is like starlight  
 See it when a star dies  
 It continues to shine  
 But it's only old light  
 Oh, old light  
 It's been dead for a long time  
 Long time  
 Time, time  
 Stars and love burn bright  
 Till they're ready to die  
 The broken spend their nights  
 Staring at the sky  
 If love enters your life

It leaves a stain inside your sky  
 This will lead you to believe  
 That it is still alive  
 But it is just old light  
 Completing its last flight  
 Across a velvet night  
 Stars burn bright till they die  
 Like love bites in the sky  
 Love is like starlight  
 Love is starlight  
 I took all our favourite songs  
 Played them and I made them my own  
 I went to our favourite bars  
 And I drank in them alone  
 Woah, 'cause I've grown up a solitary soul  
 Sometimes I think it's better on my own  
 I need time just to roam, roam, roam  
 Find one place I can call home  
 Love is like starlight  
 Even when a star dies  
 You can see it shine  
 But it's only old light  
 Oh, old light  
 It's been dead for a long time  
 Long time  
 Long time, time  
 Stars and love burn bright  
 Till they're ready to die  
 The broken spend their nights  
 Staring at the sky  
 If love enters your life  
 It leaves a mark inside your sky  
 This will lead you to believe  
 That it is still alive  
 But it is just old light  
 Completing its last flight  
 Across the velvet night  
 Stars burn bright till they die
