

Marina And The Diamonds - True

```
Ooh-ooh-ooh
Intro: Dm C Am Bb
Everybody tells us what to do, do, do
                                                              'Cause you don't need nobody else
Think they always know what's good for you, you, you
                                                             When you are true, true to yourself
                                                                            Am
We know they don't really have a clue, clue, clue
                                                             You're skin and bone, you're full of fear
 Ooh-ooh-ooh
                                                             But you are just a human being (No matter what they do)
People like to tell you what to think, think, think
                                                             Always said we're gonna be true
Sometimes it feels right to do the wrong, wrong thing
                                                             We will never change, we will never change
                                                                                   Bb
                                                                       Am
Let it go and listen to your own instincts
                                                             They could never do it better
 Ooh-ooh-ooh
                                                             Than when we are, are together
                                                             Always said we're gonna be true
                  \mathsf{Am}
'Cause you don't need nobody else
                                                             We will never change, we will never change
When you are true, true to yourself
                                                             They could never do it better
               Am
You're skin and bone, you're full of fear
                                                                      C
                                                             Than when we are, are together
                         Dm
But you are just a human being (No matter what they do)
                                                             Ah, ah-ah-ah-ah, ah-ah
Always said we're gonna be true
                                                             Am Bb C
                                                                                  Dm
                                                             Ah, ah-ah-ah-ah, ah-ah (No matter what they do)
We will never change, we will never change
          Am
They could never do it better
                                                             Always said we're gonna be true
                                                                          C
         C
                      Dm
                                                             We will never change, we will never change
Than when we are, are together
Always said we're gonna be true
                                                             They could never do it better
          C
                                                                     C Dm
We will never change, we will never change
                                                             Than when we are, are together
         Am
                     Bb
They could never do it better
                                                             Always said we're gonna be true
Than when we are, are together
                                                             We will never change, we will never change
                                                                                   Bb
                                                                       Am
                                                             They could never do it better
Don't need to add nothing on your skin, skin, skin
                                                             Than when we are, are together
Be happy with the body that you're in, in, in
                                                             Ah, ah-ah-ah-ah, ah-ah
Being who you are don't cost a thing, thing, thing
