

Mark Wilkinson - Everything To Me

tom:
Intro: F Dm Gm C

I fool around and I play it down
But babe, you mean the world to me
It may be sometimes hard to see
But baby, you mean everything to me

I leave the ground, my head in the clouds
Tumbling so fancy free
Just high upon your love, you see
'Cause baby, you mean everything to me

And everywhere you go
You take me on a road
To where I'd rather be
And every time you smile
You take me on a ride
To where I want to be

'Cause you're everything, everything to me
But you're everything to me
Everything to me, yeah
Everything to me

I get so down when you're not around
I'm half the man I used to be
Just drowning in this endless sea

Till you come home to rescue me
And everywhere you go now
You take me on a road
To where I'd rather be
And every time you smile
You take me on a ride
To where I want to be

'Cause you're everything, everything yeah
Now baby, don't be away for too long
'Cause I fall apart when you're gone
And you bring the words to my song, hmm
And ooh, now baby, don't be away for too long
'Cause I fall apart when you're gone
And baby, here in my arms you belong, ooh, well

Everywhere you go now
You take me on a road
To where I'd rather be
And every time you smile
You take me on a ride
To where I want to be

'Cause you're everything, everything to me
But you're everything to me, yeah
Everything to me
Everything to me
