

Marlon Borges - Nascer e Morrer

Tom: C

Beijando a face da noite
 Iluminando o dia de paixão
 Soltando o corpo em movimento lindo
 Gozando a liberdade de apenas ser

Eu vou pedir pra você vir

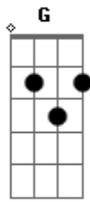

Pra ficar comigo até daqui a pouco
 Até nós descobrirmos por que
 Nascer e morrer

O amor nos diz pra dividir
 Pra tornar livre o que se tem
 Como pode isso se não se tem nada
 Nem possui ninguém
