Tom: Gb

Intro: Abm B Ebm Db

Hey you don't wanna love you on the telephone  
 You're hanging up and now I'm all alone  
 Baby you got me doing dirt doing dirt doing dirt  
 And now I wanna find you but you're on the run  
 My heart's exploding like a burning sun  
 I know you like it when it hurts when it hurts when it hurts  
 Hold me we're dancing in the dark of the night  
 You're shining like a neon light  
 I light you up when I get inside  
 So won't you touch me cause everybody's watching us now  
 We're putting on a show for the crowd  
 So turn it up baby make it loud  
 Hey you say that you're only having fun and then  
 You call me up at 3am again  
 Baby you got me doing dirt doing dirt doing dirt  
 And now all that I got is just a microphone  
 To let you know that I am all alone  
 I know you like it when it hurts when it hurts

Hold me we're dancing in the dark of the night  
 You're shining like a neon light  
 I light you up when I get inside  
 So won't you touch me cause everybody's watching us now  
 We're putting on a show for the crowd  
 So turn it up baby make it loud  
 Yeah come on  
 So right now I wanna leave with you right now  
 I wanna be with you all night get in the car let's go  
 Yeah let's take it home let's take it home let's take it home
