

Maroon 5 - Infatuation

Tom: **G**

Dbm **Gbm**
 Baby, I don't want to spend my life on trial
B **E**
 For something that I did not do
 And maybe if you stopped and looked around some time
 I wouldn't pass right by you

Maybe it's because you are so insecure
 Maybe your pain don't care
 Maybe it's the chase that really gets me off
 I fall so when it's just not there

Am
 Burn another bridge, break another heart
B
 Try again, it will only fall apart

E **Dbm**
 Infatua...tion
Gbm **B**
 Not seeing the rest of you is getting the best of me
E **Dbm**
 It's such a shame that you shot me down
Gbm **B**
 It would have been nice to be around
E **Dbm**
 I'm touching your skin
Gbm **B**
 If it's only a fantasy, then why is it killing me?
Em **Dbm** **Gbm** **B**
 I....guess this must be.....infatuation

E
 I want it, I want it,
Dbm
 I want it, I want it,
Gbm
 I want it, I want it,
B

(I want it?x7)

Try to put my finger on what burns me up
 It always seems to escape me
 And when you have decided that you've had enough
 Just tell me where I need to be

Now her face is something that I never had
 To ever deal with before
 She left me with the feeling that she'd had enough

And I'm the one wanting more

Burn another bridge, break another heart
 Try again, it will only fall apart

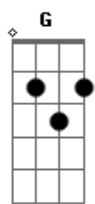

Infatuation
 Not seeing the rest of you is getting the best of me
 It's such a shame that you shot me down
 It would have been nice to be around
 I'm touching your skin
 If it's only a fancy, then why is it killing me?
 And I guess this must be infatuation (I want it?x7)

G **Gbm** **E**
 I'm so attracted to you
G **Gbm** **E**
 The feeling's mutual too
G **Gbm** **E**
 And I get scared the moment you leave

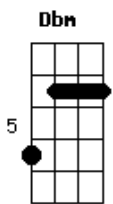

Get so hot I forget to breathe, yeh

Infatuation
 Not seeing the rest of you is getting the best of me
 It's such a shame that you shot me down
 It would have been nice to be around
 I'm touching your skin
 If it's only a fancy, then why is it killing me?
 I guess this must be infatuation (I want it?x3)
 Ooh (I want it?x6)
 Ooh (I want it?x3)
 Yeh? (I want it?x8)
