

# Martina Stoessel - Still Standing

tom:

C

I used to let you tear me apart

C F C F

I let your words fly through me like darts

?Am F

You pour your water on my fire

G

Try to dim the light in me

Am

There's something naked

F

Something sacred

G

That you're never gonna see

?Am F C G

Let the rain crash down over my head

?Am F C G

You can rip my heart out of my cheats

Am F

You tell me that you're my parachute

C G

And I can't make it without you

?Am F C G

But I'll survive this crash landing

?Am F C G

I'll still standing, still standing

C F C F

I'll wash the dirt and tears from my face (wash the dirt)

C F C F

And put my pieces back in their place (oh)

Am

There's something primal

F

In survival

G

And I'm stronger then I seen

Am F G

There's is beauty in the broken, there's so much more to me

?Am F C G

Let the rain crash down over my head

?Am F C G

You can rip my heart out of my cheats

Am F

You tell me that you're my parachute

C G

And I can't make it without you

?Am F C G

But I'll survive this crash landing

?Am F C G

I'll still standing, still standing

?Am F C G

I'll still standing, still standing

Am G

I used to think that you hung the moon

C F

I'd hang on every word

Am G

But now I know that you tore me down

C F

To build yourself up more

Am G F

I feel sorry for you right now

Am G F

I feel kind of sorry for you right now

?Am F C G

Let the rain crash down over my head

?Am F C G

You can rip my heart out of my cheats

Am F

You tell me that you're my parachute

C G

And I can't make it without you

?Am F C G

But I'll survive this crash landing

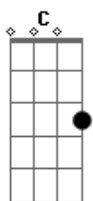

?Am F C G

I'll still standing, still standing

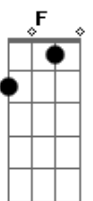

?Am F C G

I'll still standing, still standing
