

Marty Casey - Trees

Tom: G

I don't want to go through this life
Without you, by my side
And I, got it all worked out
In my head, is all it got to be
It'll be you and me
Up in the trees
And the forest will give us the answers
It'll be you and I
Up in the sky
It's a combination for disaster
We, we make believe
In a world we rule together
We, can build our dreams
With a knot tied tight
To last forever
It'll be you and me
Up in the trees
And the forest will give us the answers
It'll be you and I
Up in the sky
It's a combination for disaster

Yeah, yeah, yeah, yeah yeah, yeah
We got one shot
So let's use our imaginations
Yeah, yeah, yeah, yeah yeah, yeah
You're all that I've got
So where do we go from here
[Solo]
It'll be you and me
Up in the trees
And the forest will give us the answers
It'll be you and I
Up in the sky
It's a combination for disaster
And I know
There's more for us in this life
If we hold on
If we hold strong
And I know
There's more for us in this life
Can we hold on
Can we hold on
[Final]
