

Marvin Sapp - Praise Him In Advance

tom:

Intro: Db Ab Db

[Primeira Parte]

I've had my share of ups and downs
 Times when there was no one around
 God came and spoke these words to me
 Praise will confuse the enemy

I started singing, I started clapping
 I started dancing, people were laughing
 They knew my problems, they knew my pain
 But I knew God would take them away

[Segunda Parte]

I've had my share of ups and downs
 Times when there was no one around

God came and spoke these words to me
 Praise will confuse the enemy

I started singing, I started clapping
 I started dancing, people were laughing
 They knew my problems, they knew my pain
 But I knew God would take them away

That's why I praise him with my hands
 That's why I praise him with a dance
 He's given me a second chance
 Come on let's praise him in advance

That's why I praise him with a song
 When things are right and when they're wrong
 He's given me a second chance
 Come on let's praise Him in advance
