There was a place - a little town
Where we used to play and laugh around
                 Ebm
We went too far - reaching for that star
And the light moved away from me
                 В
                         Dbm
But the spirit never died - the world belongs to me
This is when I've been given time to live and see
I'll never give up - never give in
Won't stop believing cause I'm gonna win
Sing with my soul before I get old
Cause there may be no tomorrow
                В
There is no limit to what can be done
                          Abm
Climbing the mountain with power so strong
Dusty roads - down the way
               Gb
Leaving the future behind me - ooohh
I got a fast car - like a rock star
                Fbm
Come and join the ride with me
Take a spin downtown
```

Rise from the fire if you're gonna win
Sing with your soul - soon you'll be old
Fight the demons inside you
