Em
I forget when words were only words
She knows the party makes me nervous
In this stage we can't get hurt
Don't try to understand me

C
We're too cool to be alone
D **Em**
But, not too crazy to get busted

Em
I found out one life ain't enough
I need another soul to feed on
I'm the flame I can't get burnt
I'm wholly understated

C
I found silence in this space
D **Em**
An on and off again attraction
C **D**
I need such amazing grace
D
Heaven sweep me away

Refrão:

(**Em G D C**)
Love don't change, don't come around here
Don't wear my heart on your sleeve
Like a high school letter

Don't strain, cuz nothing ever comes from it
And the people we've become, well
They've never been the people who we are
Intro: Riff 1

Em
I strap on one horse and prayed for luck
I dug another hole to bleed
I know exactly how this works
I need a new feel dirty
C **D**
I don't need you crowding up my space
Em
I just want to get inside you
C **D**
You can't blame the heart you save
D
Giving something away

Refrão Intro Riff 1

Em
I dreamed that the world was crumbling down
C
We sat on my back porch and watched it
Em
I dreamed that the buildings all fell down
C
We sat on my back porch and watched it

Em **G**
I dreamed that the world was crumbling down
C
We sat on my back porch and watched it
D
In my head I heard the sound
Like fifteen strangers dancing

(**Em G D C D**)
But oh how I want you to know me
Oh how I want you to know me
Oh how I wish I was somebody else, baby
Oh how I wish you could own me
