

Matchbox Twenty - Here Come Horses

Tom: C

Help me to remember girl if you don't mind
Well I feel just like the jester when the music died
C Haven't seen you lately,
G But I know that nothing's changed
G Feeling kinda shaky but the wounds have healed
There's a crack there in the doorway where the walls have peeled
C And I still see the sun go down on a clear day
G

Am C
Here comes horses
G
There goes the rain
Am C G
Here goes nothing, here it comes again

G
I was thinking I was angry but I'll let it go
I was waiting on a miracle but nothing showed
C

And they say our new messiah

G
He's at the local bar
G
Greetings from the homefront have you heard the news
That daddy bet his paycheck on the horses shoes
C G
And we won't feel that way for a long long time

Am C
Here comes horses
G
There goes the rain
Am C G
Here goes nothing, here it comes again

G C G C Am C G Am G
G
Sitting in a taxi at the evenings end
I was trying to remember where it was I'd been and
C G
Whether I've got someplace else to be
G
I ask you why you come here you say just because
I guess I could do without it if I knew what it was well
C G
It really doesn't matter, when you look at me that way

Am C
Here comes horses
G
There goes the rain
Am C G
Here goes nothing, here it comes again

Am C
Here comes horses
G
There goes the rain
Am C
Here goes nothing
