

Matchbox Twenty - Leave

Tom: A

It's Amazing A

How you make your face just like a wall D

How you take your heart and turn it off Gbm

How I turn my head and lose it all E E (D)

It's Unnerving A

How just one move puts me by myself D

There you go just trusting someone else Gbm

Now I know I put us both through hell E E

[Pre-chorus]

I'm not saying D

There wasn't nothing wrong E

I just didn't think you'd ever get tired of me A E Gbm

I'm not saying D

We ever had the right to hold on E

I just didn't wanna let it away from me A E Gbm

[Chorus]

But if that's how it's gonna leave D

Straight out from underneath E

Then we'll see who's sorry now Gbm

If that's how it's gonna stand, when D

You know you've been depending on E

The one you're leaving now, the one you're leaving now A Gbm (E)

It's aggravating A

How you threw me on and you tore me out D

How your good intentions turn to doubt Gbm

The way you needed time to sort it out E E (A)

D

I'm not saying

There wasn't nothing wrong E

I just didn't think you'd ever get tired of me A E Gbm

I'm not saying D

We ever had the right to hold on E

I just couldn't ever let you get away from me A E Gbm

But if that's how you gonna leave D

Straight out from underneath E

Then we'll see who's sorry now Gbm

If that's how you gonna stand, when D

You know you've been depending on E

The one you're leaving now, the one you're leaving now A Gbm (E)

The one you're leaving now, now-no-no A

The one you're leaving now? Gbm (E)

I'm not saying D

There wasn't nothing wrong E

I didn't think ever you'd get tired of me A E Gbm

But if that's how you gonna leave D

Straight out from underneath E

Then we'll see who's sorry now Gbm

If that's how you gonna stand, when D

You know you've been depending on E

The one you're leaving now now A

Hey well tell me is that how it's going to end D

When you know you've been depending on E

The one you're leaving now, the one you're leaving now A Gbm (E)

The one you're leaving now, now-no-no A

The one you're leaving now? Gbm E
