

Matchbox Twenty - Shame

Tom: **B**
Intro: (Verse)

Verse:

B **E** **B** **E**
What we learned here is love tastes bitter when it's gone

B **E**
Past yourself forget the light, things look dirty when it's on

B **Gb** **E** **Gb** **B**
Funny how it comes to pass, that all the good slips away

Gb **E** **Gb**
And there's no one around you can remember being

Now this:

good to you

Chorus:

B **Abm** **Gb**
Shame, shouldn't try you, couldn't step by you

E
And open up more

B **Abm** **Gb** **E**

Shame, shame, shame

Verse 2:(same)

What we lost here is something better left alone
Second steps have been forgotten, will you tell me how they go
Set yourself, situate, like a fool try again
There's no one around you can remember being good, for you so

Repeat Chorus

Bridge:

Gb **E** **Abm**
We never thought we'd get so troubled
Gb **E** **Abm**
We could never think that much
Gb **E** **Abm**
It should never get this mad

Verse(same)

So let the wind blow ya, across a big floor
But there's no one around who can tell us what we're here for
Funny in a certain light, how we all look the same
And there's no one in life you can remember ever stood, for you, so
