

# Matchbox Twenty - Stop Intro

Tom: **C**

I know this is kinda lame, as it is only the intro. But it's an awesome song and i reccomend you listening to it and rocking out or whatever.

This song is off of Mad season, it is the second to last song

on the CD. It has a lot stuff going on in it, and would be very hard to play with just a guitar. I submitted tab because i saw no other tabs for this song out there, and i know that this is correct So, enjoy
