

Matoma - Girl At Coachella (feat. Magic! D.r.a.m)

Tom: **Eb**

I thought I met the one

She had everything I wanted

A beauty in the sun

And we like the same bands

[Pre-Chorus: Nasri Atweh]

We danced, we laughed, we took a couple things

We screamed, we clapped, like kids in the rain

The time we had was something from a dream

'Til reality kicked in

Refrão:

And she said, she said she'd run away with me

So I took her to the VIP

And when the lights went on, she was gone forever

Never trust a girl at Coachella

She said she was the one for me

She was kissing me from cheek to cheek

But when the lights went on, she was gone forever

Never trust a girl at Coachella

Verso 2:

I met another one

Standing in a sundress

She was innocent at first

Intro: duced me to her girlfriends

Pré-Refrão:

We danced, we laughed, with water in our hands

We screamed, we clapped, like kids in the sand

She restored my faith in the human race

'Til reality kicked in

And she said

Refrão:

And she said, she said she'd run away with me

So I took her to the VIP

And when the lights went on, she was gone forever

Never trust a girl at Coachella

She said she was the one for me

She was kissing me from cheek to cheek

But when the lights went on, she was gone forever

Never trust a girl at Coachella

Final:

She was gone

Run away with me

She was gone

VIP

Lights went on, she was gone forever

Never trust a girl at Coachella

Never trust a girl at Coachella

But when the lights went on, she was gone forever

Never trust a girl at Coachella

Verso 3:

I'm still trippin' off a devious plan

I was trippin' off the shrooms

She was trippin' for a band

She took notice of some fans

And stopped for pics, 'cause I'm the man

She jumped over on my dick

'Cause she just realized who I am

Got her past the gate, actin' like my date

Soon as she got in, started actin' fake

She ain't wanna stay close to me

Even though she was just blowin' me

Blowin' in the wind, bus to bus

Member to member, all for lust

Lead singer to the man on the drums

Slow in her waist but as fast as they come

Refrão:

And she said, she said she'd run away with me

So I took her to the VIP

And when the lights went on, she was gone forever

Never trust a girl at Coachella

She said she was the one for me

She was kissing me from cheek to cheek

But when the lights went on, she was gone forever

Never trust a girl at Coachella
