

# Matt Maltese - Less And Less

tom:

Intro: C C7M F7M  
C C7M F7M

[Primeira Parte]

We make an end  
It seems short-sighted but in our defense  
We were pretty damn young and unspent  
Making choices with our innocence  
And October ends  
We grow closer to our other friends  
Where I sat beside you  
I sit now and reflect

And walk by buildings  
Till it makes some sense  
And I know

[Refrão]

You should take yourself  
Feel the rhythm life goes on again  
Though I ain't sure it's really  
How we meant  
I'll feel settled in a simple sense  
Cause I think of you less and less

[Segunda Parte]

See the grapefruit moon  
By the willows where you clutched my youth  
I recall the end we always knew

We drift apart but it's  
The right way through  
Yes I know

[Refrão]

You should take yourself  
Feel the rhythm life goes on again  
Though I ain't sure it's really  
How we meant  
I'll feel settled in a simple sense  
'Cause I think of you less and less

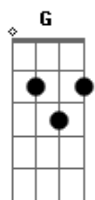

[Ponte]

And though it's fading with time  
I remember the warm nights  
With love in your eyes  
Passing the days  
Watching rain as it dries  
Staring at your eyes  
I know it's the time

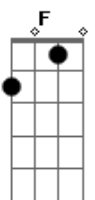

[Refrão Final]

When you should take yourself  
See the daylight and the change that's been  
Though I ain't sure  
I'll ever feel nothing  
I'll be settled in a simple sense  
'Cause I think of you less and less  
'Cause I think of you less and less
