## Max - Lights Down Low

## Tom: Bb

(forma dos acordes no tom de  ${\sf A}$  ) Capostraste na  $1^{\underline{a}}$  casa

Heaven only knows where you been But I don't really need to know I know where you're gonna go On my heart where You're resting your head And you just look so beautiful Just like you were an Angel

Can I stop the flow of time Can I swim in your divine Cause I don't I think I'd ever Leave this place

Oh Turn the lights, turn the lights Down low Yeah Now I'm feeling you, breathing slow Cause baby we're just reckless kids Trying to find an island in the flood Oh Just turn the lights, turn the lights Down low oh

Under heavy skies in the rain You're dancing In your bare feet Just like we're in a movie Grab my hand and we're chasing the train I catch you looking back at me Running through a cloud of steam

Can I stop the flow of time Can I swim in your divine Cause I don't I think I'd ever
