

McKenna Grace - Autumn Leaves

tom:
G

Met in spring, fell in fall
Rainy days, winter walks
I wear your shirt, all night we talk
In your arms is my favorite spot
Plane tickets, bucket lists
Polaroids and our first kiss
Now I know that love exists
And movie nights and promises

The way you look at me
Face only lit by the TV
The prettiest eyes I've ever seen
Blue light shining like a dream
Oh

B Gb
My favorite songs all appeared
To speak of love but now they mean
Something else since you're with me
I'm falling down like autumn leaves
My favorite smile's 2000 miles away
But now I'm flying east
I'll leave my kiss on your cheek
I'm fallin' down like autumn leaves
Oh, oh, ah-oooh

Db Gb
New York city in early may
Nothing ever stays the same
Come October things have changed
Now there's a heart next to your name
Crowded room, I look for you
I'm at this party cause you're here too
We'll leave early, 11:30
I watch you shine like you're the Moon
The way you look at me
