How do I word this?
 Was about to write you this letter
 But it was just curses in cursive
 You probably deserve it
 But that's so impersonal, should tell you in person
 I hope it don't hurt you, but then, I've been hurt too by you
 The truth is, all you do is
 Leave me emotional bruises

[Pré-Refrão]

You're callin' me up to link up and figure shit out
 No doubt, time's out, we never figure shit out
 I can't do this no more, you call me your life support

[Refrão]

'Cause this is the fifth time I've taken you back
 It's the fourth time, that we've relapsed
 It's the third-second chance that I've given you
 For the first time, let this be the last time
 Fifth time I've taken you back
 It's the fourth time, that I've collapsed into your arms
 It's so hard, but for the best

For the first time, let this be the last

[Segunda Parte]

This vicious cycle, it's driving me psycho
 I'm anxious need someone to come check my vitals (Come check my vitals)
 One minute I'm leaving, the next I forgive you

[Pré-Refrão]

You're callin' me up to link up and figure shit out
 No doubt, time's out, we never figure shit out
 I can't do this no more, cutting off the life support

[Refrão]

'Cause this is the fifth time I've taken you back
 It's the fourth time, that we've relapsed
 It's the third-second chance that I've given you
 For the first time, let this be the last time
 Fifth time I've taken you back
 It's the fourth time, that I've collapsed into your arms
 It's so hard, but for the best
 For the first time, let this be the last

[Final]

Please, please
 Let this be last
 No, it's gotta be
 It's truly, the last
