

Megan Nicole - Escape

tom:
Capostrate na 2ª casa

Run, run, run away
Meet me in our hiding place
Find me where we'll make our escape
Come, come, come away
We don't need them anyway
Find me where we'll make our escape
Slow it down, 'cause I can't breathe
So much noise, and I can't see
I'm forgetting, who I am
But can they see, that I'm not perfect

'Cause I'll never be what they want me to be
I have to believe that I'm good enough
I need to release, somewhere I can be free
And find the me I used to know

So I'm going back to the place it began
Under the tree, at the top of the hill
We shared all our dreams, or not say a word
That's where I know just who I am

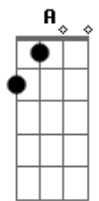

Stay with me, just be still

Feel it on, disappear, disappear
Now I'm letting go, and we'll put on a show
I'll finally believe that I'm good enough
You made me strong, to know all along
I am the me I used to know
So I'm going back to the place it began
Under the tree, at the top of the hill
We shared all our dreams, or not say a word
That's where I know just who I am (x2)

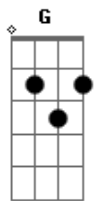

Run, run, run away
Meet me in our hiding place
Find me where we'll make our escape
Come, come, come away
We don't need them anyway
Find me where we'll make our escape
So I'm going back to the place it began
Under the tree, at the top of the hill
We shared all our dreams, or not say a word
That's where I know just who I am

Run, run, run away
Meet me in our hiding place
Find me and we'll make our escape
