                                                                Let's talk about the word "deserve"
   F Em7
                                                              Or talk 'bout the world deserves a queen (You queen)
And you deserve to be alone
                                                                                      Em7
                                                                 Let's talk about that four letter word: love
[Refrão]
           F Em7 Am
                                                              I think you deserve a king
And I deserve better, better than you
I think you deserve the world and everything in it
                                                              And I try to go get it to show you I meant it when I
I deserve better (I deserve, I deserve)
                                                                                  Em7
                                                                Tell you I'm sorry, tomorrow I promise that I
Tell 'em what they already know, I deserve better (I deserve,
                                                               Try to better, I'll do whatever for mine
                                                               And I ain't tryna be your friend's friends
Tell 'em what they already know, I deserve better
                                                              Or your quote unquote fake friend, that's why I hate friends
[Verso 2]
                                                                                   Fm7
                                                               I'd rather see you laugh to see you cry
I used to cry to all my friends
                                                              I'd rather see you lead and tell a lie
                                                              And you ain't gotta say it, you deserve better
But they would say, "I told ya"
             Em7

The weight is off my shoulders
                                                                       F Em7 Am
