                                                                I loved you from the start
  Intr 2x: C Am F G
                                                                So it breaks my heart
 Why you gotta hug me like that
                                                                When you say I'm just a friend to you
 Every time you see me?
                                                                Cause friends don't do the things we do
 Why you always making me laugh

                                                                Everybody knows you love me too
                                                                   Dm
 Swear you're catching feelings
                                                                Tryna be careful with the words I use
[Pre-Chorus]

 You never wanna kiss me
 You tell me it's too late to hang out
                                                               A friend to you

 And you say you miss me
                                                                A friend to you
