

Melanie Martinez - Dear Porcupine

Tom: E

(com acordes na forma de C)

Capostrate na 4ª casa

Drown me in my daily cup of tea

Tell the porcupines to quit stabbing me

They make me fall, but I will stand

'Cause all of them are jerks with their cups in their hands

Now they want a whisper, a whisper from me

'Cause all of them have watched me on their big screen TV's

But what about little old, little old me?

The one who got bullied because of her teeth

I hope you all are watching my middle finger rise

To the bullies in the schoolyard, I know I'm on your mind

Now you say you love me, but what about before?

When I was just the silly little girl next door

Oh oh

Oohhoooh

Ladies, oh ladies, why are you so mad?

Is it 'cause I'm classy, and you're a trash bag?

Your teasing and laughing resonates through my heart

And now you're calling me 'cause you want a fresh start

Now look at you boys, you can't believe your eyes

You told me I was ugly and I took you by surprise

You should've been nicer, 'cause look where I'm at

While you copy Mac Miller wearing snap-back hats

I hope you all are watching my middle finger rise

To the bullies in the schoolyard, I know I'm on your mind

Now you say you love me, but what about before?

When I was just the silly little girl next door

Oh oh

Oohhoooh

Why must you be so mean, talking trash about me?

All I wanted was a friend to laugh and cry and spend all of

eternity

Or even just a week

(Am C F E)

I hope you all are watching my middle finger rise

To the bullies in the schoolyard, I know I'm on your mind

Now you say you love me, but what about before?

When I was just the silly little girl next door
