                                                                         Dm

                                                               In love and war
Intro: C F F Am G
                                                               But I won't need to fight it
                                                               We'll get it right and
I'm not surprised, Not everything lasts
                        G
                                                                      G
I've broken my heart so many times I stopped keeping track
                                                               We'll be united
                                                               ( G A7 D G A Bm ) ( G Bbm Bm D G A )
Talk myself in, I talk myself out
                  G
I get all worked up, Then I let myself down
I tried so very hard not to loose it
                                                               And I know that we can be so amazing
               G
                                                               And being in your life is gonna change me
I came up with a million excuses
                                                               Em D D G Em A
I thought I thought of every possibility
                                                               And now I can see every single possibility, mmmmm
                                                               And someday I know it'll all turn out
And I know some day that it'll all turn out
             F
                     G7
You'll make me work so we can work to work it out
                                                               And I'll work to work it out

And I promise you kid that I give so much more than I get
                                                                                 I'll give more than I get

I just haven't met you yet
                              Mmmmm
                                                               Than I get, than I get, than I get
I might have to wait, I'll never give up
                                                               Oh, you know it'll all turn out

I guess it's half timing, and the other half's luck
                                                               And you'll make me work so we can work to work it out
