

## **Michael Jackson - For All Time**

```
Intro: F Em7 C (2x)
Sun comes up on this new mornin'
    G C D
Shiftin' shadows, a songbird sings F C
And if these words could keep you happy
I'd do anything
And if you feel alone, I'll be your shoulder

F G C D
With the tender touch, you know so well F G C
Somebody once said, it's the soul that matters
Baby who can really tell,
When two hearts belong so well
And maybe the walls will tumble
C D G
And the sun refuse to shine C D G Em7
When I say, I love you
Baby you gotta know
    Em7
(That's for all time)
Baby you gotta know
     Em7 C
(That's for all time)
Moon shines down on this good evening
F G C D
One warm kiss in the cold night air F G C D
For this good love I'm receiving
```

```
I'll go anywhere
Just as long as you are there
And maybe the walls will tumble C D G
And the sun refuse to shine
C D G Em7
When I say, I love you
Baby you gotta know
     Em7 C
(That's for all time)
Baby you gotta know
Em7 C
(That's for all time)
Oh, then on these quiet days
    C
Where souls embrace
So silently
Am
Am
Oh, the rain may wash away
G
All these words that young lovers say
And maybe the walls will tumble
    D G
And the sun refuse to shine
C D G Em7
When I say, I love you
Baby you gotta know
      Em7
(That's for all time)
Baby you gotta know
(That's for all time) (...)
```

## **Acordes**
