                                                                    If they say

G A D A Bm A

Why, why, tell 'em that it's human nature
Looking out
                                                                    G Gbm Em Bn
Why, why, does he do me that way
Across the nighttime
G A
The city winks a sleepless eye
                                                                    If they say
                                                                    G A D A Bm A
Why, why, tell 'em that it's human nature
G Gbm Em Bm
Why, why, does he do me that way
Hear her voice
     Α
Shake my window
G Gbm Em A
Sweet seducing sighs
                                                                    I like lovin' this way

Em Bm
                                                                     I like lovin' this way
Get me out
Into the nighttime
                                                                     ( G G )
G A
Four walls won't hold me tonight
                                                                     ( G A F Em ) (2x)

If this town
                                                                    Looking out
Is just an apple

Then let me take a bite
                                                                    Where the city's heart begins to beat
                                                                    G A
