

Michael McLean - Take My Life

tom:
Intro: D C G

[Primeira Parte]

I took a snapshot of my life
But the exposure was all wrong
I couldn't see a thing developing
It's been that way too long

[Segunda Parte]

So I have come with a request
Though part of me thinks I'm insane
But I'm determined to see this thing through
And I will not complain

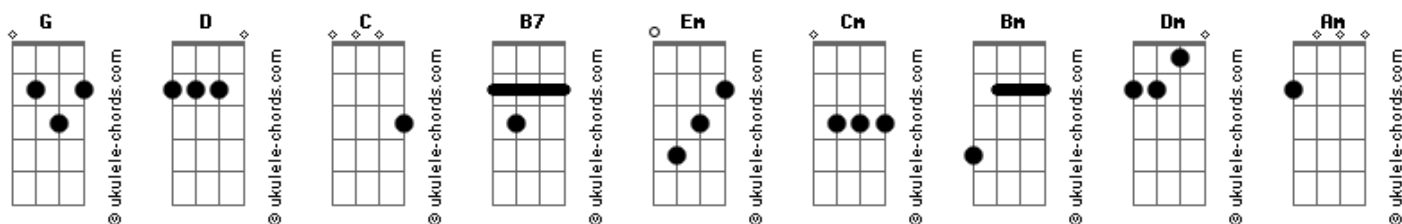

[Refrão 1]

Take my life and turn it into something better
Choose anyway you will
Take this shack, break down the walls and build a palace
Up on a higher hill

[Segunda Parte]

I thought I knew where I should go and try
To get there on my own

Acordes

I took the easy roads and now I know
I'm lost and all alone

[Refrão 2]

Take my life and turn it into something useful
Don't stop until your done
Take these eyes, and make them see a clearer vision
Of what I can become

[Ponte]

And on those days, when I think I'm dying
I'll trust in you and keep on trying
And if you pick this road, I'll take it
'Cause with you as my guide, I know I can make it

[Refrão 3]

Take my life and make it one that is worth living
Don't stop until your through
Take this life, the one that I am freely giving
[Final]

I give it all, I give it all
I give it all to you
I give it all, I give it all
To you
