

Mickey Darling - Feed My Ego

tom:
Capostrate na 6ª casa

Where the heck are you?

I don?t like waking up without you next to me
(Ughhhhhhhhhhhh)

When you see me I?m probably gonna kill you, bye

And I?ve been saving up my tears so casually
And you?ve been practicing your deep throat tragedy
And I keep staring at the mirror

Oh vanity
And I eat any girl that?s near

No cavity

I hurt you for selfish reasons

(I don?t love you too

I don?t I don?t love you too)

You are all I ever
Needed, needed, needed

No I don?t love you I just love the things you say
Feed my ego
Keep telling me all the ways that you think I?m great
Feed my ego

And you would be so good without me happily
And nobody could ever be as sad as me
And all I need is compliments please constantly

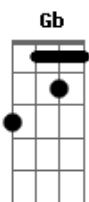

I make people think I?m happy comedy

I use you for selfish reasons

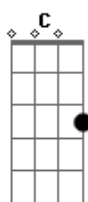

I don?t love you too

I don?t I don?t love you too

(I?m not scared of you)

(I?m not scared of you)

It?s not a crime

If I use you

(I?m not scared of you)

It?s not a crime

To use me too

(I?m not scared of you)

It?s not a crime

To not love you

(I?m not scared of you)

To love me too
