

Midnight Til Morning - Math

tom:

C

Can you let me have a Friday night
 Without you calling on my phone and trying
 To tell me that it's gonna work this time
 You know we've been here a million, billion

Am

Every time, around and around you go

I've got vertigo

We both know how this ends

C

When it's 5 AM

You love messing with my head

Another four drinks in

And don't getting sick of it

Am

Saying those three words

You never mean it

It's too late to leave me bleeding now (oh, well)

I thought you were the one

But I gotta do the math again

All my problems started multiplying

Every time I let you in my mind

God bless (God Bless) this devine

On and off again a million, billion

Am

Every time, around and around you go

I've got vertigo

We both know how this ends

C

When it's 5 AM

You love messing with my head

Another four drinks in

And don't getting sick of it

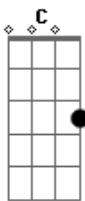

Am

Saying those three words

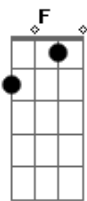

You never mean it

It's too late to leave me bleeding now (oh, well)

I thought you were the one
 But I gotta do the math again

Na, na, na, na, na, na, na

Na, na, na, na, na, na, na

Na, na, na, na, na, na, na

I thought you were the one
 But I gotta do the math again

Na, na, na, na, na, na, na

Na, na, na, na, na, na, na

Na, na, na, na, na, na, na

Oh, oh

I thought you were the one

I thought you were the one

When it's 5 AM

You love messing with my head (messing with my head)

Another four drinks in

And don't getting sick of it

Saying those three words

You never mean it (oh, whoa)

It's too late to leave me bleeding now (oh, oh) (oh, well)

I thought you were the one

But I gotta do the math again

Na, na, na, na, na, na, na

Na, na, na, na, na, na, na

Na, na, na, na, na, na, na

Yeah, I thought you were the one

But I gotta do the math again

Na, na, na, na, na, na, na

Na, na, na, na, na, na, na

Na, na, na, na, na, na, na

Yeah, I thought you were the one

But I gotta do the math again
