

Mika Kobayashi - Call Me Later

Tom: D
Intro: Bm G A Bm
Em Gbm Bm

In the middle of night
I was far from the flight
They freely pass me by
Then I'm totally out of space and seeking my friends
Is there anyone who needs me?

I hear what you say
There's the tiniest hope
You can change yourself
If you want to
Then you find the door
We can walk from the past
I was a frog in a well

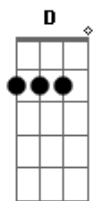

Smile like you've never done
I'm so fine
Then you hold me tight under bad weather
If you understand why
I was crying on the river so
Dwell on my self

All the time
(intro)

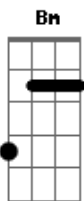

And you follow the light
I was far from the flight
They freely pass me by
Then I'm totally out of space and seeking my friends
Is there anyone who needs me?

I hear what you say
There's the tiniest hope
You can change yourself
If you want to
Then you find the door
We can walk from the past
I was a frog in a well
Smile like you've never done
I'm so fine
Then you hold me tight under bad weather
If you understand why
I was crying on the river so
Dwell on my self
All the time
