

# Miley Cyrus - Dream As One

tom:  
 Our love will never fade away, we're diamonds in the dark  
 I put my head against your chest and listened through your heart

?Cause you are my hope no matter where I go

Never alone 'cause somehow I always know

Even through the flames

Even through the ashes in the sky

I know when we dream, we dream as one

Every time I breathe

It's a song to keep this love alive

I know wh?n we dream, we dr?am as one

I know when we dream, we dream as one

So beautiful when we're together, like feathers on a wing

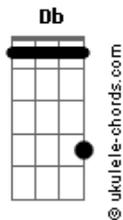

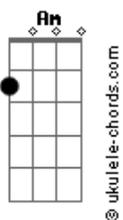

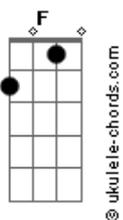

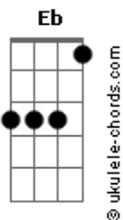

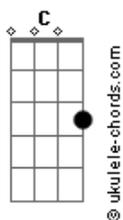

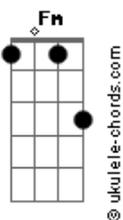

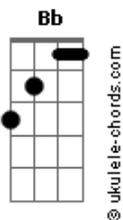

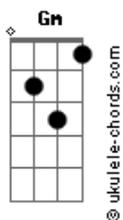

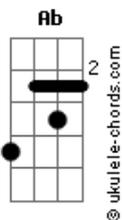

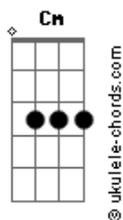

Righty-right beside me, we're two arrows in the wind

'Cause you are my home (My home) no matter where i go

Never alone (Alone), i've never been afraid to let you know that

Even through the flames

## Acordes

Even through the ashes in the sky  
 Baby, when we dream, we dream as one

Dream (Dream, dream, dream)
