

# Miley Cyrus - On My Own

Tom: G  
Intro: Em C Bm (2x)

I ain't looking at you  
For no particular reason  
It's just a good spot, for me to be in  
I gotta open that door, oh yeah  
I gotta get it open! hey!  
I'm part the way through, just like a robber  
And smile for the camera  
Damn, i feel awesome  
But she doesn't know more, hey!  
Gotta get it open, heyyy  
pre-chorus:  
You will never listen when i need someone to talk to  
So you switch the subject, cause, cause it's beyond you  
And when you talk about your dreams, i'm never included  
I need to stop sleeping on myself  
Wake up and do it on my own!

chorus:  
I'll find a way, yeah  
And i'll do it on my own  
hey!  
I can do anything, yeah  
And i'll do it on my own  
I will get it done with the help from no one  
I came into this world by myself  
So i don't need nobody else  
We have just begun  
So much to do, so young

Don't be afraid of alone, you'll get it done on your own  
I know you're in there! open up, open up!  
Just like the feds, looking for the subs  
Three knocks at the door  
Uh, i gotta get it open  
I'm so confused, with all the traffic  
I'mma skip the line  
Who cares what happens!  
I gotta stay on that course  
Uh, i gotta get it open!  
pre-chorus (2x):  
You will never listen when i need someone to talk to  
So you switch the subject, cause, cause it's beyond you  
And when you talk about your dreams, i'm never included  
I need to stop sleeping on myself  
Wake up and do it on my own!

chorus 2x:  
I'll find a way, yeah  
And i'll do it on my own  
hey!  
I can do anything, yeah  
And i'll do it on my own
