# Miley Cyrus - Take Me Along

Tom: C
Intro: C G Dm F (G)

```
C                                        G
The city of angles is lonely tonight
                               Dm
Keep myself alive by candle light
                             F
Say she can love you like I do
                                 C
Look me in the eyes and say it's true
                              G
I ask myself, is this love at all
                            Dm
When I need you most you let me fall
                                F
I'm always here at the side of your stage
                            Dm           F
Let you live your life and pretend I'm okay
        C
I'll be okay
    G
I'll hold you close we'll stay forever

C           G                    Dm
I don't understand why you're leaving me
          F                                C
I don't understand why without you I can't breathe
                           G
Please don't, don't leave me here
                         Dm
Take my hand and bleeding tears
                       F
I don't understand why you can't
            C
Take me with you

                       G
You can pretend I don't exist
                            Dm
But you'll see my face every time you kiss

                             F
```
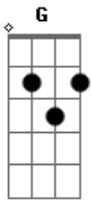

```
I hope you hurt and your walls fall down
                               Dm           F
When you hear the sound that I'm okay
                C
I'll be okay
            G
You can't hold me down, I won't stay forever

C           G                    Dm
I don't understand why you're leaving me
          F                                C
I don't understand why without you I can't breathe
                           G
Please don't, don't leave me here
                         Dm
Take my hand and bleeding tears
                       F
I don't understand why you can't take me with you

Dm               F
I watched you leave
                 C
Walk away tonight
               G              Dm
And I'm letting go for the last time
                       F
And through the tears I say goodbye
        C                            G
So breathe in, breathe in, breathe in, breathe out

C           G                    Dm
I don't understand why you're leaving me
          F                                C
I don't understand why without you I can't breathe
                           G
Please don't, don't leave me here
                         Dm
Take my hand and bleeding tears
                       F                C     G     Dm
I don't understand why you can't take me with you
F
