

Miley Cyrus - Younger You

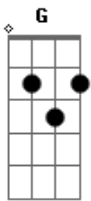

tom:
G

Hey, you
It's younger you
I'm just checking in to see
If you still remember me
Hey, you
It's younger you
Do you still pray before bed
Or are you worrying instead?

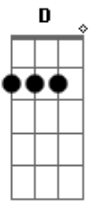

Somewhere along the way, we lost touch
We used to be so happy just because
I know you had to go eventually
But don't forget about me
Don't forget about me

Hey, you
It's younger you
I know you're busy with your job
But don't forget to call your mom
And dad too
He misses you

He may tell you that he's fine
But you're always on his mind
Somewhere along the way, we lost touch
We used to be so happy just because
I know you had to go eventually
But don't forget about me
Don't forget about me, no

Ooh-ooh-ooh-ooh-ooh
Ooh-ooh-ooh-ooh-ooh
Ooh-ooh-ooh-ooh-ooh
Ooh

Hey, you
It's younger you
I know your story isn't done
But do you love who you've become?
Hey, you
It's younger you
When you're standing on the stars
Just don't forget who you are
